

# UNLOCKING ENERGY PROFIT FOR CORPORATE & INDUSTRIAL ORGANISATIONS

## MAXIMISE YOUR ENERGY STRATEGY

Your energy is a strategic asset, not just a cost. With the right approach, it can drive long-term business success.

We specialise in:

- ◆ Cutting energy costs & risk
- ◆ Creating new income streams
- ◆ Accelerating sustainability goals

With rising energy prices, market volatility, and the pressure of net-zero targets, we'll turn your energy strategy into a competitive advantage.

## OUR SERVICES

We offer full-spectrum support, from buying smarter to generating and monetising your own power:

- ◆ Strategic Energy Procurement (fixed, flex, layered)
- ◆ On-site Solar PV & Battery Storage (CapEx, EaaS, hybrid)
- ◆ Grid Flexibility Revenue Enablement (Wholesale Energy Market Services)
- ◆ Fully Managed Bureau Services (billing, energy reports, SECR/ESOS)
- ◆ Real-time AI Energy Management Insights with AI driven energy optimisation

## WHY IT MATTERS

We know time and resource are tight – but that shouldn't stop progress. Your mission is to hit sustainability targets and reduce waste. Ours is to make that simple.

## WHY WE EXIST

**We put UK organisations back in control of their energy.**

Energy should work for you – not against you. Our vision is simple: remove complexity, reduce cost, and give businesses the confidence to take charge of how they buy, use, and generate energy. We provide the tools, insights and support to:

- Cut through energy market noise
- Take full control of your usage, contracts and costs
- Future-proof your business from rising prices
- Achieve sustainability targets without the hassle

No jargon. No guesswork. Just clarity, strategy and results.

## WHAT YOU GAIN

**Turn your energy from a cost into a commercial advantage.**

Energy isn't just a utility – it's a powerful business tool.

Here's what you gain when you take complete control over cost:

### **Revenue from Flexibility**

Get paid for supporting the grid with your battery, generation, or load flexibility.

### **Lower Operational Costs**

Optimise when and how you buy energy to increase your bottom line and reduce exposure to high market rates.

### **Real-Time Visibility**

Access your energy data in one place, with smart insights to make fast decisions.

### **Stronger ESG Performance**

Cut carbon, costs and accelerate your sustainability journey.

### **A Clear Strategic Advantage**

Turn your energy into a source of savings, income, and long-term resilience.

**TRUSTED BY  
530+ CLIENTS**
